

## C&C Health and Wellness Best Practices

**Dear Valued Customer,**

At C&C, the health and wellness of our staff and customers is our #1 priority. As part of our ongoing commitment in providing clean, safe, and welcoming service. We have extensive cleanliness policies and procedures to help protect against the spread of bacteria and germs.

### **HOW C&C PREPARES:**

Our Service Technicians and team members follow all recommendations issued by public health authorities or government agencies. We're proud of our high cleanliness standards and the proactive, preventive measures we take to protect against the spread of bacteria and germs.

### **HOW WE PROTECT YOU:**

Our Service Technicians wipe down equipment before and after servicing a home or business. Our trucks are stocked with sanitary equipment to promote a consistently sanitized environment. We are closely monitoring government updates to ensure the safety of our customers.

With cold and flu season upon us and heightened awareness, please know that we are closely monitoring the situation and will follow instructions and recommendations issued by public health authorities or government agencies as needed.

We're proud of our high cleanliness standards and the preventative measures we take to protect against the spread of bacteria and germs.

**Thank you for your continued commitment to us, we're looking forward to servicing your home or business this season!**

Sincerely,  
The C&C Team
